

TDS- BigBlue

CONCENTRATED SURFACE ANTIBACTERIAL SANITISER

BigBlue is a highly concentrated fast-acting anti-bacterial surface sanitiser. Its high concentration will rapidly remove the thickest grime, dirt, mildew, soap scum, and bacteria. **BigBlue** with its specially formulated anti-bacterial properties will leave all surfaces germ-free and sparkling!

BigBlue highly charged active agents make it incredibly effective on any bathroom or kitchen surface without the use of bad chemicals that will effect your health and the environment.

BigBlue liquid is made to last and be used directly out of the bottle or in a dispenser leaving a pleasant Eucalyptus fragrance.

BigBlue requires less cleaner than its peers further reducing your carbon footprint without damaging your skin.

BigBlue should be applied to the surface manually by a bucket and cloth or by hand spray (reuse one of your old hand spray bottle and save your planet a bit more!) When using the hand-sprayer use the foaming trigger. Once **BigBlue** is applied leave the agents do their work for 10-30 minutes, depending on surfaces and toughness of the grime, (have a cup of coffee while **BigBlue** is doing all the work for you). Any difficult stains should be treated with a brush or mob. Apply regularly to keep the nasties at bay. **BigBlue** can also be used with a pressure washer such as Wagner, floor cleaner or any other floor or pressure cleaner.

Recommended for the use of all types of bathrooms and sanitary installations, drains, washroom basins, chrome, ceramic tiles, sink, showers, shower doors and baths, including porcelain and fibreglass as well as any surface in the kitchen from stainless steel to ceramic table tops and cabinet finishes.

Concentration:

Dilute the super concentrate to 1:20 for your normal use (100 ml of **BigBlue** to 1000 ml water)

Dilute the super concentrate to 1:5 for your heavy use (100 ml of **BigBlue** to 500 ml water)

1. Citrus based cleaner, heavy duty surface sanitising;
2. Contains **NO PETROLEUM BASED SOLVENTS**;
3. Contains **NO BLEACH**;
4. Contains **NO DANGEROUS ACIDS**;
5. Contains **NO ABBRESIVES**;
6. Made with Eucalyptus extracts;
7. **Biodegradable**;
8. **pH 8.8**;
9. High strength formulation requires less cleaner to be used;
10. Fresh fragrance which leaves the wash area smelling fresh;
11. **Anti-Bacterial; KILLS BACTERIA AND GERMS.**
